

## WHO WE ARE

For years I recognized the need for more aftercare options, so in 2022, I began working on a digital aftercare program.

Being raised in the funeral profession, I genuinely appreciate the significance of getting things right from the start.

In the first 2 years, we have maintained 100% retention and helped our clients receive hundreds of positive Google reviews.

Our user friendly live online program is created to meet your specific needs and will help support connections with the families you serve.
